Interregional IAEA-CYTED-UNECE Workshop on Recent Developments in Evaluation of Uranium and Thorium Resources, 15 to 18 October 2012, Lisbon, Portugal

The International Atomic Energy Agency (IAEA) has requested nominations from its Member States for the above workshop to be held in Lisbon, Portugal from 15-18 October 2012 under the activities of the Inter Regional Project INT/2/015 on "Supporting Uranium Exploration, Resource Augmentation and Production Using Advanced Techniques" project. (A copy of the prospectus is attached).

The purpose of the workshop is to discuss and provide inputs and share information on current development in evaluation of uranium and thorium resources. The workshop will focus on the following topics of interest;

- Status and trends in uranium and thorium geology and exploration;
- Evaluation of uranium and thorium resources;
- Uranium and thorium resources and its sustainable development with focus on health, safety, environment and social license;
- Uranium and thorium resource reporting under United Nations Framework Classification – 2009 (UNFC-2009); and
- Case studies in UNFC reporting.

The training committee of Atomic Energy Authority (AEA) has recommended to obtain suitable nominations from **University of Moratuwa and University of Peradeniya** which are functioning under your Ministry. As such please be good enough to arrange to forward a suitable nomination for participation at this workshop through your Ministry before the deadline for the submission of nominations to IAEA is **15th August 2012**. An additional copy may be submitted to the AEA directly through the Head of the Institute as advance information. It is required that applications are neatly typed as applications filled with illegible hand-writing are rejected by the IAEA.
