MESSAGE FROM THE CHAIRMAN OF THE UNIVERSITY GRANTS COMMISSION

Access to higher education is the ultimate dream in many young minds. The responsibility of the Universities is to provide conducive environments to produce graduates who are not only equipped with up-to-date knowledge, skills and the right attitudes but also with the appropriate mindset to progress in their chosen careers. The University Grants Commission (UGC) is the apex body responsible for selection and allocation of students to State Universities and Higher Educational Institutes (HEIs) established under the Universities Act No. 16 of 1978 (as amended).

This publication provides the necessary guidance to help you to select the courses of study of your preference. It also provides detailed information regarding policies, rules and regulations, minimum qualifications required for University admission and other details. There is a separate section in the official website of the UGC for Frequently Asked Questions (FAQs).

State University System offers 251 courses of study of Universities (Uni Codes). Within the government policy on Higher Education, all courses are offered free. In addition, students are supported with Mahapola scholarships, government bursary and several other financial scholarships offered by non-state organizations and philanthropists. Data indicates that 70% - 80% of students receive such financial assistance. Hostel accommodation is provided at very subsidized rates and most peripherally located Universities offer hostel accommodation throughout the period of stay in the university.

Due to the fact that All Island Merit is considered as the sole criteria for the selection to courses of study in Arts degree programmes and, 60% of selection to all other degree programmes are on District Basis, entry to State University System has become very competitive. For example, out of 102,788 students who applied for University admission for the academic year 2020/2021, only 42,000 students were selected. The University Grants Commission together with the State Universities is continuing to create more opportunities to enhance the student access to higher education in Sri Lanka.

Life skills are an essential component for personality development for undergraduates and are sought and highly rated by potential employers. There are ample opportunities within universities to enhance life skills and other extra-curricular activities of undergraduates. University Grants Commission lays special emphasis on enhancing English and IT as essential soft skills of all undergraduates. During the year 2017, new Departments of English Language Teaching (DELT) have been established in the Universities. A uniform examination with band levels called UTEL is now conducted for all University students. The UTEL certificate will be very useful at the interviews for employment as objective evidence of competence in English.

Currently, University students have access to a wide array of sports activities including opportunities to participate at international sports events. The University experiences of students can be enriched by their association with various student bodies in relation to subjects (Eg. Physiology or Geography Club), arts, culture (Eg. Arts Circle), religion (Eg. Buddhist Brotherhood, Muslim Majilis) and student unions etc. I strongly encourage students to get involved in such activities. You can get the best out of all these facilities to develop your soft skills.

The UGC is the legally mandated authority for registration of students to State Universities & Higher Educational Institutes established under the Universities Act No. 16 of 1978. Therefore, online submission of applications for University admission and online registration with the UGC for the selected course of study of the University is a mandatory requirement. The UGC certified lists of registered students are then sent to Universities and Higher Educational Institutes. Universities enroll students only from the certified lists sent by the UGC. The UGC will undertake the responsibility of the security of online systems.

All students who wish to apply for a placement to State Universities must read the book carefully before completion of the online application. A clear understanding of different subject combinations would help you to select the courses of study you are interested in entering into. I have observed that failure to do so with care and precision has resulted in, students losing the most preferred academic programme or completely losing the opportunity to gain admission.

Wish you success in all your future endeavors !

Chairman

SECTION 1

Policies and Principles governing admission to first degree programmes in State Universities and Higher Educational Institutes under the University Grants Commission

1.1 Admissions Policy for State Universities and Higher Educational Institutes

Admissions policy differs between the subject streams.

For students seeking admission to Arts courses mentioned in 1 to 10 of the Section 2.1 (1) of this handbook, All Island Merit is the main criterion used for selection. The district basis is not used for selection of students in this category. Therefore, all students compete on an equal basis for placements for those courses of study.

The total number to be selected for a course of study is based on a national policy. The decision is that the total number of students admitted from a given district for a particular course of study will not be below the total number admitted to that course of study from that district in the academic years 1993/1994 or 2002/2003, whichever is greater.

However there is one exception to All Island Merit selection criterion for selection of students to Arts courses.

The exception is, for selection of students to the following categories of Arts courses.

1. Music
2. Dance
3. Drama & Theatre
4. Visual Arts
5. Visual & Technological Arts
6. Art & Design

Selection for these courses is based on the district quota system which is explained below.

Also selection to all other streams, namely Commerce, Biological Science, Physical Science, Engineering Technology, Biosystems Technology and courses of study listed in Section 2.2.8 of this handbook for which students from different subject streams are eligible is based on the following criteria.

1. Up to 40% of the available places of a particular course of study is selected on the order of Z-scores ranked on All Island Merit.
2. Of the remaining 60%, up to 55% is selected on the district quota system. The district quota system is that, for a given district, in addition to the number selected under the All Island Merit (40%), additional seats are made available up to the remaining 55%. Accordingly, up to 55% of the available places in each course of study will be allocated to the 25 administrative districts in proportion to the total population of each district; that is on the ratio of the population of the district concerned to the total population of the country.

3. In addition, there are 16 districts, recognized and classified as educationally disadvantaged districts. The remaining 5% of the total available seats are given to the students of these districts. This again is allocated on the ratio of the population of each such district to the total population of the 16 districts recognized as disadvantaged districts. The 5% is for all 16 districts and not for one district.

The 16 districts categorized as ‘educationally disadvantaged’ are,

- | | | |
|-----------------|------------------|-----------------|
| 1. Nuwara Eliya | 7. Vavuniya | 13. Polonnaruwa |
| 2. Hambantota | 8. Trincomalee | 14. Badulla |
| 3. Jaffna | 9. Batticaloa | 15. Monaragala |
| 4. Kilinochchi | 10. Ampara | 16. Ratnapura |
| 5. Mannar | 11. Puttalam | |
| 6. Mullaitivu | 12. Anuradhapura | |

However, in selecting students for a given course of study, it will be ensured that the quota allocated to any district (i.e. the total of 55% and 5%) will not be below the quota in the academic year 1993/1994 or 2002/2003, whichever is greater.

It should be noted that the actual numbers selected could vary from the proposed figures by universities for each academic year, because of the practical problems encountered in allocating students to universities and other unavoidable factors. The approximate distribution of the numbers among different universities is given in Annex (b) of this Handbook.

A limited number of students will also be admitted on special grounds as specified in Section 6 of this Handbook, subject to the conditions set out therein.

1.2 Minimum requirements for university admission

Candidates who are pronounced eligible for university admission by the Commissioner General of Examinations should have obtained;

- (a) At least ‘S’ grades in all three approved subjects in one sitting, within a maximum of three attempts.

IMPORTANT

“Every student admitted to the Medical Degree Programme of a university or an institution shall have passed the General Certificate of Education (Advanced Level) Examination of Sri Lanka or an equivalent examination, in the subject of Biology, Chemistry and Physics with minimum grades of two credit passes and a simple pass in combination of these subjects at one and the same sitting” (As per the Gazette Extraordinary No. 2222/69 published on 10.04.2021)

- (b) A minimum mark of 30% for the Common General Paper

- Candidates who have not obtained 30% or above for the common general paper are not eligible for registration for the courses of study of the universities for which they have been selected based on the Z Score in the current academic year.
- If such a candidate has obtained a minimum of 30% for the common general paper in a previous attempt within three attempts allowed for university admission, the previous achievement can be considered.
- Candidates who have not obtained a minimum of 30% shall re-sit and obtain a minimum of 30% for the common general paper in a next available year within three attempts allowed for university admission, to be eligible to get registered for the courses of study of the universities for which the candidates have already been selected based on Z Score, in a future academic year.

1.3 Z score obtained by the students at the G.C.E. (Advanced Level) Examination

Z score is calculated and given to UGC by the Department of Examinations of the Ministry of Education. This is a statistical calculation. The calculation is based on three factors.

- i. 'Raw marks' of students for the given subject for the given year
- ii. Mean of the performance of that subject for the given year
- iii. Standard deviation of that subject for the given year

Therefore, the Z score changes with the educational achievements of the students and the total number of students offered a particular subject in the given year.

1.4 'Cut off' marks required for admission to different courses of study at different Universities

Cut off marks are calculated by the University Grants Commission. 'Cut off' marks for a given course of study will depend on the factors such as how well the candidates have performed at the G.C.E. (Advanced Level) Examination in a given year, the demand for a particular course of study and the university and the number of seats available for the course of study.

Accordingly, 'Cut off' marks may vary from year to year depending on factors such as performance of students who have applied for that particular course of study for that year, total number of places offered by universities for that particular course of study, the population of each district etc.

Sometimes, some students may not apply for university admission expecting to sit for the advanced level examination again. Also some students may apply for university admission but will not get registered for the course of study for which they have been selected because of change of mind.

Therefore, when applying for university admission, students are strongly advised to apply for a maximum number of eligible courses of study with their preferences irrespective of their Z score and the previous years' cut off marks.

1.5 Criteria for determination of the district of a candidate for university admission

In order to decide the district of a candidate for university admission, the candidate must provide evidence of enrolment in schools for the period of last three years in his/her application form for university admission. For this purpose, the Head of the school in which the candidate is currently studying should certify the accuracy of the information provided by the school candidate in his/her application form on the basis of school records and for private candidates, a Justice of Peace/ Commissioner for Oaths should certify the accuracy of the information provided by the candidate in his/ her application form on the basis of the School Leaving Certificate.

The three year period is calculated backwards from the last date of the month, which is the month, immediately preceding the month in which the candidate sat the advanced level examination to qualify for university admission. For example, if the advanced level examination is held in February, the three year is calculated backwards from 31st January of that year.

Accordingly, the district of the school of which the candidate has studied at least one year or more during the three year period considered, will be considered as the district of the candidate for university admission.

If the candidate has enrolled in more than one school during the said three-year period, then, the district of the school of which the candidate has studied most number of days is considered as the district of that candidate for the purpose of university admission. However, that duration compulsorily should be at least one year or more. For example, a candidate has studied in a school located in a district for one year and three months and the remaining one year and nine months in a school located in another district, then the district of the school in which the candidate has studied for one year and nine months will be the district for the purpose of university admission.

However, let us assume, if a candidate has studied in a school located in one district for eleven months and in two schools located in another district for nine months and ten months respectively. Then the second district will be considered as the district of the candidate for the purpose of university admission as the total period studied in that district (one year and seven months) is greater than the period studied in the first district (eleven months) and also the total period studied in the second district is greater than one year.

If the schooling period of the candidate is less than one year from any of the districts or candidate has not enrolled in any school for advanced level during the three year period considered, the district where the permanent place of residence of the candidate is located is the district considered for university admission. For the purpose of confirming the permanent place of residence of the candidate, following two documents should be submitted along with the application.

These two documents are,

- i. Original of the School Leaving Certificate or Original of the Pupil's Record Sheet.
- ii. Original of the Grama Niladhari Certificate (DS4 Certificate)

Note :

For private candidates, it is compulsory to submit the original School Leaving Certificate along with his/ her application for university admission.

1.6 Admission criteria for State Universities and Higher Educational Institutes established under the Universities Act No. 16 of 1978 (as amended)

1. All students are provided an equal opportunity to enter state higher education.
2. To be fair to all, opportunity to enter into a free state sponsored course of study is given only once.
3. This is because, withdrawal from the registration of the course of study the student got selected or non-reporting after getting registered to a degree program will cause loss of opportunity for university admission of another student in the same year. Also, by requesting to withdraw the registration and get registered to another course of study based on the results of a subsequent year, the student is trying to deprive the opportunity of another student who sat the examination in that subsequent year.
4. The opportunity will be given for university admission, based on the results of one of the three attempts allowed to sit for the G.C.E. (Advanced Level) examination for the purpose of university admission. Accordingly, when applying for registration, the student is allowed to apply on the results of the same examination based on which the applications for university admission are called.
5. Once the candidate, upon receiving the letter of selection from the UGC, having made the payment of Rs. 50/= as the registration fee in credit of the UGC, to the bank or online and registers online via the official website of the UGC for the selected course of study of the University/ Higher Educational Institute to which he/she has been assigned, on or before the last date given for registration, he/she is deemed as a registered student at a University/Higher Educational Institute, established under the Universities Act No 16 of 1978 (as amended) as mentioned in Section 1.6 (8) below.
6. After making the payment, the date on which the online registration to the selected course of study of the university has been completed via the official website of the University Grants Commission will be considered as the date of registration.

Accordingly, after making the due payment in credit of the UGC to the bank or online, on or before the last date given by the UGC for registration to the selected course of study of the university, if the candidate fails to complete the registration online as stated in Section 1.6 (5) above, that will not be accepted as a valid registration.
7. Also, if the payment is made to the bank, candidate should upload and send a scanned copy of the Paying in Voucher to UGC when getting registered online, in order to verify the payment.
8. The list of the all Universities and Higher Educational Institutes to which the selection and assignment of students is done by the UGC, covered under the Universities Act No. 16 of 1978 (as amended) is given below :-

1.8 Steps taken to reduce the delay in admission of students to the universities

1. Unless there are reasons beyond our control (E.g. Court cases), in future, UGC will call for applications for university admission as soon as possible.
2. **Therefore, it has been made compulsory to apply for university admission online.** This will help to reduce the time lost for processing paper applications, which enables UGC to release cut off marks early.
3. Clear guidance for online submission of applications is given in the Section 5 of this handbook.
4. If you do not have facilities to apply for university admission online or not confident to use the on-line system, Regional and Study Centers of the Open University of Sri Lanka (OUSL R&SC), Internet Technology Distance Learning Hub (ITDLH) under Ministry of Education and Nenasala Centers under the Information and Communication Technology Agency (ICTA) closer to your residence mentioned at the end of Section 5 of this handbook will help you for the online application process **free of charge**.
5. Once cut off marks are released, all selected students must use the online registration system to register for the selected course of study of the University or the Higher Educational Institute. **Please note that this is also a mandatory requirement.** Safety and security of the online application and online registration systems are guaranteed.
6. Getting the students registered online for the selected course of study of the university as mentioned in Section 1.6 (5) above is one of the steps introduced to reduce delays in the process of university admission.
7. Registration of students to courses of study of the Universities or Higher Educational Institutes online through the UGC website will reduce the registration delays that may occur at individual university level due to multitude of reasons which may be beyond their control.

SECTION 3

Introduction to Uni-Codes system and instructions to use Uni-Codes for indicating the order of preference

This section mainly includes clear instructions for you to mark your preferences for the Uni-Codes and the procedure for changing the order of preference of the Uni- Codes correctly. Therefore, you are advised to read this chapter carefully and understand before filling your preferences for the Uni-Codes online.

3.1 Introduction to Uni-Codes system and instructions to use Uni-Codes for indicating the order of preference

1. In the academic year 2021/2022, there are 123 different degree programmes conducted by 16 National Universities, 02 Campuses and 04 Higher Education Institutes under UGC.
2. A unique code (a unique identity) is given to each individual course of study in a particular university /campus / institute.
3. **This unique code is referred as “Uni-Code”.**
4. In total, there are 251 Uni-Codes.
5. The list of Uni-Codes is given in page no. 139- 145.
6. Students could apply for any number of Uni-Codes (i.e. any number of courses of study of universities) to which they are eligible to apply.
7. They should arrange their “Uni-Codes” from the **highest preferred Uni-Code to the lowest preferred Uni-Code.**
8. Sequence should indicate the decreasing interest to a Uni-Code, in the mind of the student.
9. **Students are strongly advised to mark the maximum number of Uni-Codes which they are eligible to apply when filling the application.**
10. Students should not depend on the cut-off marks pattern of the previous year given in the official website of the UGC, as that information is given only to make candidates understand the demand for a given Uni-Code.
11. Marking the maximum number of Uni-Codes is important because a student will not be allocated to a Uni-Code (course of study of a university) if the student has not requested that Uni-Code, even if the cut off mark for that Uni-Code will make the student eligible for that course of study of the university.

For example, if a student is eligible to enter into a particular Faculty of Medicine based on the Z-score obtained, yet not indicated the preference to the relevant Uni-Code which identifies that Faculty and requested Dental Sciences instead as the next preference, then the student will be selected for Dental Sciences without getting selected to that Faculty of Medicine, even though he/she is eligible to enter into that particular Faculty of Medicine.

12. **Please note that a student will not be considered for a Uni-Code if the student has not requested.**

13. Students are not allowed to enter the same Uni-Code more than one occasion in the order of preference.
14. UGC will always attempt to select the candidate to his/her most preferred Uni-Code. However, if the seats of that Uni-Code are already filled with the candidates who have obtained higher z-scores than him/her, then the next preferred Uni-Code for which the candidate is eligible will be considered.
15. The students are not eligible to apply for all 251 Uni-Codes. A choice for a candidate will depend on the subjects offered at the G.C.E.(Advanced Level) Examination.

E.g: Students who offer Biological Science are not eligible to apply for Engineering, so the choice for a particular student would be much lower than the 251 options. However, each candidate can mark up to a maximum of 125 choices in the application.

Students are strongly advised to mark the maximum number of Uni-Codes which they are eligible to apply, when forwarding the application.

3.2 Basis of assignment of students to courses of study of the universities (Uni-Codes)

Selection of eligible candidates to follow a particular course of study at a university will be based on the following criteria for the academic year 2021/2022. (In addition, candidates should have fulfilled the other pre - requisites of the course of study).

- Z score obtained by the candidate
- Preference given to courses of study of universities by the candidates (Order of “Uni-Codes”)

When a candidate has indicated preferences for more than one course of study of a university, at first, he/she will be considered for admission to the course of study and the university to which he/she has given first preference. If the candidate is not selected for that course of study and the university he/she will then be considered for the next course of study and the university he/she has given second preference in the application. This process is illustrated by the following example:

Assume that a candidate has indicated ten courses of study with universities in the following order of preference, in his/her application;

Eg. “Uni-Code”

1.	0	1	6	C	Management - University of Sri Jayewardenepura
2.	0	2	8	C	Management (Public) Honours - University of Sri Jayewardenepura
3.	0	1	6	A	Management - University of Colombo
4.	0	1	8	C	Commerce - University of Sri Jayewardenepura
5.	0	1	7	C	Estate Management & Valuation - University of Sri Jayewardenepura
6.	0	1	6	D	Management - University of Kelaniya
7.	0	7	7	C	Business Information Systems (Honours) - Sri Jayewardenepura
8.	0	2	5	A	Law - University of Colombo
9.	0	9	1	G	Information Technology & Management - University of Moratuwa
10.	0	9	6	T	Information Systems - UCSC

This candidate will be considered first for the course of study in Management at University of Sri Jayewardenepura, then for the course of study in Management (Public) Honours at University of Sri Jayewardenepura, next for the course of study in Management at University of Colombo and so on according to his/her order of preference until he/she is selected or found not qualified for any of these ten courses of study. Let us presume that his/her Z score, which is inadequate for both courses of study in Management and Management (Public) Honours at University of Sri Jayewardenepura and qualifies him/her for admission to the course of study in Management at University of Colombo, he/she will then be selected for the course of study in Management at University of Colombo and will not then be considered for any of the preferences given in 4 to 10 above.

If a particular candidate has not given preference to a course of study of a university (Uni-code) for which he/she could have been selected according to the Z score, he/she would not be allocated to that course of study and the university for which he/she has not indicated a preference. Instead he/she would be considered to the next choice of course of study and the university preferred by him/her.

In the selection the course of study and the university both will be considered together.

Candidates are considered only for the courses of study of the universities for which they have marked a preference.

Candidates will not be considered for the courses of study of the universities to which they have not marked a preference.

Important:

If a student is not getting registered to a selected course of study of a university (Uni-Code), he/she will not then be considered for any other university to follow the same course of study, under filling of vacancies even if the student has given higher preferences for the same course of study in different universities in the application form for university admission. Instead, his/her application will be considered for the next course of study higher preferred.

You will be able to understand this further from the following example.

Example 1:

Assume a student has indicated preferences for courses of study of universities in his/her application form for university admission as given in the next page.

“Uni-Code”

1.	0	8	3	D	Speech and Hearing Sciences - University of Kelaniya
2.	0	0	4	L	Agriculture - Sabaragamuwa University of Sri Lanka
3.	0	0	5	M	Food Science & Nutrition - Wayamba University of Sri Lanka
4.	0	0	4	M	Agriculture - Wayamba University of Sri Lanka
5.	0	0	6	A	Biological Science - University of Colombo
6.	0	0	6	C	Biological Science - University of Sri Jayewardenepura
7.	0	0	6	D	Biological Science - University of Kelaniya
8.	0	0	6	F	Biological Science - University of Ruhuna
9.	0	0	7	L	Applied Sciences (Bio) - Sabaragamuwa University of Sri Lanka
10.	0	0	7	K	Applied Sciences (Bio) - Rajarata University of Sri Lanka

Assume that this student got selected to Biological Science at University of Ruhuna which is his/her 8th preference in the application form for university admission under the normal intake. However, if the student did not get registered for Biological Science at University of Ruhuna, he/she will not be considered for University of Kelaniya, University of Sri Jayewardenepura and University of Colombo which are his/her 7th, 6th and 5th preferences respectively, to follow the course of study in Biological Science under the filling of vacancies. Instead, he/she will be considered for preferences given in 4 to 1 above.

Example 2:

Assume that the student mentioned in the above example got registered for Biological Science at University of Ruhuna to which he/she got selected under the normal intake and which is his/her 8th preference in the application form. However, if the student gets selected for Biological Science at University of Kelaniya which is his/her 7th preference in the application form, under the filling of vacancies and not getting registered for the same, then he/she will no longer be considered for University of Sri Jayewardenepura or University of Colombo which are his/her 6th and 5th preferences respectively to follow the course of study in Biological Science under the filling of vacancies, even if the student has already got registered at University of Ruhuna to follow the course of study in Biological Science. Instead, he/she will be considered for preferences given in 4 to 1 above.

Therefore, if a student decides not to get registered for a selected course of study of a university (Uni-Code), it means that the student wishes not to get considered for any other university to follow the same course of study, to which the student has indicated higher preferences in the application form.

However, if the student wishes his/her application to be considered for a higher preferred university than the currently selected university to follow the same course of study under filling of vacancies, first he/she should get registered at the UGC for the course of study of the university already selected. Accordingly, if the student given in the Example 1 wishes his application to be considered for the course of study in Biological Science at University of Colombo under the filling of vacancies, he/she should first get registered

for the course of study in Biological Science at University of Ruhuna to which he/she got selected.

Otherwise, his/her application will no longer be considered for any of the higher preferred universities, i.e the 7th, 6th and 5th preferences in the application form respectively, to follow the course of study in Biological Science.

3.3 Change the order of preference for the courses of study of the universities

Candidates are permitted to change their order of “Uni Codes” online **within a month of the closing date of applications** as per the instructions given in the (C) of the Section 05 of this Handbook.

Once the order of Uni-Codes is changed they should send the duly signed printed copy generated under registered cover to reach the Deputy Secretary/ University Admissions, University Grants Commission, No 20, Ward Place, Colombo 07, within a month from the closing date of applications.

The signature you placed in this form should be same as the signature you have already placed in your first application.

By changing your order of “Uni-Codes” at this stage, the entire order of preference given by you in the first application will be cancelled and you will be considered for the selection of students for university admission based on this new order of “Uni codes” given by you.

Requests for change the order of “Uni-Code” preference through letters, fax or e-mail shall not be accepted.

No candidates will be permitted to change the order of “Uni Codes” after one month of the closing date of applications.

4.2 Procedure for filling of vacancies/ method adopted for not getting selected to some of the higher preferred courses of study of universities under filling of vacancies or to remain in the currently selected course of study and the university without getting elevated to any of the higher preferences under filling of vacancies

4.2.1 Criteria for filling of vacancies

Vacancies may arise in a particular course of study of a university as a result of non-registration of students selected under the normal intake. These vacancies are filled subject to the provisions made in Section 3.2 of this Handbook, on the following basis;

- (i) Vacancies arisen in a particular course of study of a particular university (Uni-Code) due to non-registration of students selected under the merit quota will be filled by the students next in line on an all island merit basis.
- (ii) Vacancies arisen in a particular course of study of a particular university (Uni-Code) due to non-registration of students selected under the district quota will be filled by the students next in line on a district merit basis. Vacancies in a particular district will be filled with students from the same district.
- (iii) When an additional number of students have been selected over and above the district and merit quota due to clustering of students at the same mark point or any other practical reason, such additional number will be deducted from the number of vacancies and only the balance will be filled.
- (iv) Also in the filling of vacancies, both the course of study and the university to which candidate has given preference will be considered together.

If a particular candidate has not given a preference to a course of study of a university (Uni-code) for which he/she could have been selected based on Z-score he/she would not be selected to that course of study of a university for which he/she has not indicated a preference. Instead, he/she would be considered to the next choice of course of study of the university (Uni-Code) preferred by him/her.

- (v) Vacancies in any course of study will not be filled after the commencement of the academic programme of the university concerned without the consent of the Dean of the respective Faculty. "Commencement of academic programme" specified above does not mean the commencement of an orientation programme including the English course.

Very Important:

4.2.2 For students who wish not to get selected for some of the higher preferred courses of study of universities under filling of vacancies or to remain in the currently selected course of study and the university without getting elevated to any of the higher preferences under filling of vacancies.

- (i) When a candidate getting registered to a course of study of a university or a higher educational institute (Uni-Code) to which he/she got selected under the normal intake or filling of vacancies on the basis of the results of the G.C.E (Advanced Level) Examination held in 2021, if he/she wishes not to be considered for some of the courses of study of universities (Uni-Codes) in future rounds of filling of vacancies to which he/she has given higher preferences than the

currently selected course of study of the university (Uni-Code) in the application form for university admission or wishes to remain in the course of study of the university (Uni-Code) currently selected without getting promoted to any of the higher preferred courses of study of the universities under future rounds of filling of vacancies, should follow the following steps when getting registered online for the course of study of the university (Uni-Code) currently selected.

1. Click on the **Promotion Declaration** button.
 2. Then, the list of higher preferred Uni-Codes than the currently selected course of study of the university, arranged according to your order of preference will be displayed.
 3. Carefully select the Uni-Codes for which you **do not want to be considered** under future rounds of filling of vacancies for which you have given higher preferences than the already selected Uni-Code (put a “√” mark in relevant check boxes). However, if you do not want to be considered for any of the courses of study of universities (Uni-Codes) in future for which you have given higher preferences and wish to remain in the already selected course of study of university, you may click on the check box in the last column of the header row to select all the Uni-Codes in one go. The Uni-Codes selected by you for removal will be crossed off.
 4. Then, click on the **REMOVE SELECTED HIGHER PREFERENCES** button to remove your unwanted Uni-Codes from the database. When you click on the **REMOVE SELECTED HIGHER PREFERENCES** button, the window will not get closed, instead your database will be updated. Next, click on the **Back** button to go back to the previous page (The Uni-Codes which you have selected as unwanted Uni-Codes for filling of vacancies will also be displayed in the Online Payment Receipt generated at the end of the online registration process).
 5. If you want to re-change the Uni-Codes list which you have selected for removal, you can re-follow the steps (1) to (4) above.
 6. **If you fail to remove** the courses of study of universities (Uni-Codes) for which you do not want to be considered in future rounds of filling of vacancies, you should accept and get registered for the course of study of a university to which you would be elevated according to the higher preferences indicated in the application form for admission.
- (ii) Vacancies are filled in several steps according to the above criteria until the proposed intake of a particular course of study of a university is met.
- (iii) According to the example given in the next page, presume that a candidate is selected to the course of study in Biological Science at University of Colombo (8th preference) based on the cut off marks for university admission.

In the filling of vacancies, candidate may be selected to the course of study in Radiography at University of Peradeniya (6th preference) or Physiotherapy in University of Colombo (5th preference).

In the next steps of filling of vacancies, candidate may also be selected to the course of study in Biological Science at University of Peradeniya (4th preference).

If the candidate wishes to remain in the selected course of study in Biological Science at University of Colombo without getting elevated to a course of study of higher preference, it should be mentioned clearly as explained in Section 4.2.2 (i) above, when getting registered online to the selected course of study of the university. Otherwise the candidate should accept the course of study of the university to which he/she would be elevated according to his/her higher preference.

However, if the candidate does not get registered for the selected course of study in Biological Science at University of Colombo which is his/her 8th preference in the application form, he/she will not then be considered for Biological Science at University of Peradeniya which is his/her 4th preference, under filling of vacancies, as explained in the paragraph named “Important” in Section 3.2.

4.3 Procedure to obtain a transfer from one university to another for the same course of study

When vacancies are filled candidates may be selected to a course of study of a university or a higher educational institute (Uni-Code) for which they have given a higher preference.

Therefore, candidates do not need to send a separate request to be selected to the same course of study conducted by a different university of higher preference given in the application.

Also, please note that mutual transfers are not allowed under any circumstances.

Courses of study and universities for which the candidates have indicated higher preferences are offered based on the vacancies available for those courses of study and universities on the basis of Z-score as per the criteria in the Section 4.2 above.

Candidates who wish to be selected for a course of study and a university for which he/she has indicated a lower preference should make an appeal as per the instructions given in the Section 4.4.

4.4 Procedure to make an appeal

After the completion of selection of candidates for admission under the normal intake for the academic year 2021/2022, the UGC will appoint an Appeals Committee to investigate and report on appeals made by candidates regarding the admission under the normal intake. Appeals will be entertained from the following;

- (a) Applicants who fall within the declared minimum Z-Score for selection for a particular course of study of a university for which the requirements for university admission have been fulfilled but not selected, subject to provisions made in Section 3 of this Handbook.
- (b) Applicants who have been selected for a particular course of study of a university, but consider that they qualify to be selected for another course of study of a university indicated by them for which the requirements for university admission have been fulfilled, subject to provisions made in Section 3 of this Handbook.
- (c) Applicants who request that their course of study of the university/higher educational institute be changed to another course of study of a university/higher educational institute to which they have given a lower preference for which the requirements for admission have been fulfilled. (In order to consider appeals for a change of course of study of a university/higher educational institute there should be vacancies in the relevant course of study of the university/higher educational institute. Students' order of Z-Score will be taken into consideration when there are more students who have appealed than vacancies).
- (d) Applicants who failed to apply for a particular course of study of a university/higher educational institute for which the requirements for admission have been fulfilled (In order to consider appeals under this category there should be vacancies in the relevant course of study of the university/higher educational institute. Students' order of Z-Score will be taken into consideration when there are more students who have appealed than vacancies).

The Appeals Committee will not consider appeals made in respect of the following and such appeals will not be acknowledged and payments will not be refunded.

- i. Admission under special provisions
- ii. Admission for special subjects under an additional intake
- iii. Admission under filling of vacancies

Those who wish to make an appeal should fill the specimen application mentioned in Annex-I of the Section 10 of this Handbook and send under registered cover to reach the Secretary - Appeals Committee on University Admissions, C/O University Grants Commission, No. 20, Ward Place, Colombo 07 within four (04) weeks from the date of publishing the Cut-Off-Points (COPs). The words "Appeals - University Admissions" should be indicated on the top left hand corner of the envelope.

Every appeal should be accompanied by the counterfoil of the paying-in-voucher authenticated by the seal of one of the above-mentioned banks and the signature of an Authorised Officer on such counter foil. No appeals will be considered or notified without this payment. Also, incomplete or appeals with unclear reasons will be rejected.

Appeals through fax or e-mail will not be considered.

Specimen form for Appeals is also available on the UGC web site - www.ugc.ac.lk.

If you wish to send more than one appeal, you can use a photocopy of the specimen form for Appeals.

4.5 Procedure to make a complaint/objection regarding selection of a particular student for a course of study/ university

Persons who wish to object to the selection of a particular student for a given course of study of a university on the ground that he/she is not qualified for selection, can do so in writing to the Deputy Secretary/ University Admissions, University Grants Commission, No 20, Ward Place, Colombo 07.

When a complaint is made, the complainant should give as much information as possible about the student whose selection is objected to, stating the nature of the objection and wherever possible produce documentary evidence in support of the objection.

4.6 Postponement of admission

6.6	Admission of Teachers	165
6.7	Additional Intake	166

SECTION 6

Admission of students under special provisions

In admitting students to universities, it is a common practice in many countries to reserve a few places for special categories of students such as those who have excelled in sports, arts and culture, blind and differently abled, personnel of armed forces, teachers and foreign students.

Only a very few number is admitted on the special grounds specified above.

The special categories of candidates who qualify for special admission to universities in Sri Lanka are described below.

6.1 Blind and Differently Abled Candidates

The UGC may, at the request of the universities concerned, decide to admit a limited number of blind students [who sat the G.C.E (Advanced Level) Examination, 2021 using the Braille system] to the course of study in Arts and differently abled students (who are medically certified as disabled) to courses of study in Arts, Commerce, Biological Science and Physical Science.

It is important to note that, only candidates who satisfy the minimum requirements for university admission (set out in Section 1.2 of this Handbook) and the appropriate subject pre-requisites (set out in Section 2.2 of this Handbook) for the relevant course of study will be considered under this special provision.

Applicants are required to submit medical certificates acceptable to the UGC in proof of their physical disability in any occasion as requested by UGC. For the purpose of this section, physical disability shall mean a permanent physical impairment which has affected normal life.

Applications for admission under the category of blind and differently abled candidates specified above should be made in the prescribed form appearing at the Annex-III of this Handbook.

The duly perfected application forms of the differently abled candidates attached with the certified copies of medical reports should be sent along with the applications for university admission to reach the Deputy Secretary/ University Admissions, University Grants Commission, No. 20, Ward Place, Colombo 07 on or before the closing date for applications as specified in the press notice.

Incomplete applications and applications received after the due date will be rejected. No press notices will be published calling for applications under this provision separately.

6.2 Students who have Excelled in Extra Curricular Activities

Up to 0.5% of the places from the proposed intake in each course of study other than courses offered by the University of the Visual and Performing Arts have been reserved for candidates who have obtained 1st, 2nd or 3rd places at national level and / or achievements at international levels in such fields as sports, cultural activities (e.g. dancing, painting, music and literature), scouting and cadetting, social work and other extra curricular activities between 01.02.2019 to 31.01.2022 but have failed to gain admission under the normal intake because of the shortfall of a few Z - scores.

In the case of the University of the Visual and Performing Arts up to 4% of the places from the proposed intake in each course of study have been reserved for the admission of students under this category.

In order to be eligible for admission under this provision, candidates should have satisfied the minimum requirements specified in Section 1.2 and subject pre-requisites for admission to a particular course of study specified in Section 2.2 of this Handbook.

Candidates who are within a Z – score of 0.2000 of the cut-off-point applicable to the admission district of the candidate in the relevant course of study will only be considered for admission and should be summoned for an interview.

Candidates who are eligible under this scheme are required to produce documentary evidence with regard to their achievements at national / international level when they are summoned for an interview at the UGC Secretariat.

Marks will be awarded for their achievements at the interview in accordance with a marking scheme approved by the UGC. Final selection will be made in order of the marks that applicants obtain at this evaluation, depending on the places available under this special provision.

For selection of candidates, marks scored at this evaluation will not be added to the Z-score marks obtained by applicants at the G.C.E (Advanced Level) Examination.

Applications for admission under the category of students who have excelled in extra curricular activities specified above should be made in the prescribed form appearing at the Annex-II of this Handbook, by indicating the courses of study to which you wish to be considered for admission according to your order of preference. Please refer Annex (a) for the mapping table of courses of study. Applications which do not indicate the course codes given in Annex (a) will be rejected without any notice.

The duly perfected application form given in Annex - II with the signature and the official frank of the principal of your school and the certified copies of the certificates relevant to your achievements during the period from 01.02.2019 to 31.01.2022, should be sent along with the printed application for university admission to reach the Deputy Secretary/ University Admissions, University Grants Commission, No.20, Ward Place, Colombo 07 on or before the closing date for applications as specified in the press notice.

If the student is unable to attend the interview for the above provision, the parent or guardian of that student could attend the interview on behalf of the student in the relevant day with a letter from the student, due to a reason acceptable by the University Grants Commission. However, permission to the same should be obtained from the University Grants Commission in advance.

Incomplete applications and applications received after the due date will be rejected.

No press notices will be published calling for applications under this provision separately.

6.3 Candidates with Exceptional Abilities / Skills in Sports

A small number of places over and above the proposed intake for the course of study in Sports Science & Management conducted by the Sabaragamuwa University of Sri Lanka, University of Sri Jayewardenepura and University of Kelaniya and for the course of study in Physical Education conducted by the Sabaragamuwa University of Sri Lanka and University of Jaffna will be allocated to the candidates who have excelled in Sports.

The requirements to be fulfilled for this special admission are as follows.

6.5 Sri Lankans who have Studied Abroad and Foreign Students

- Up to 0.5% of the places from the proposed intake in each course of study have been allocated to foreign students and Sri Lankan students who have obtained qualifications abroad. Accordingly, candidates with results at a foreign examination held outside Sri Lanka deemed equivalent to G.C.E. (Advanced Level) Examination of Sri Lanka are eligible to apply for admission to universities in Sri Lanka.

Selections are based on the following order of priority:

- Children of Sri Lankan diplomatic personnel who are/have been stationed in other countries provided they have received education abroad for at least three academic years in the six-year period immediately preceding the qualifying examination.
- Children of foreign diplomatic personnel working in Sri Lanka.
- Students from SAARC countries.
- Sri Lankan students not covered under (a) above provided that they have obtained qualifications for university admission after studying abroad for not less than three academic years immediately preceding the qualifying examination.
- Other foreign students not covered under (b) or (c) above.

The parents of the Sri Lankan candidates of categories (a) & (d) above should also have worked in the same country during the three academic year period considered for admission under this provision.

All selected candidates will be admitted on fee levying basis except for the candidates under category (a) above.

- (ii) In addition, up to 4.5% of the places over and above the proposed intake in each course of study will be allocated on fee levying basis to foreign students and Sri Lankan students who have obtained qualifications abroad.

The parents of the Sri Lankan candidates considered under this 4.5% provision should also have worked in the same country during the three academic year period considered for admission under this provision.

All prospective candidates should download the relevant applications from the official website of the UGC (www.ugc.ac.lk).

6.6 Admission of Teachers

The University Grants Commission may admit a limited number of teachers to courses of study in Arts, Biological Science, Physical Science and Applied Sciences each year belonging to the following categories:

- (a) Teachers who have passed the General Arts Qualifying (External) Examination/ First Examination in Bachelor of Arts (External) in or after 2017 having offered English as one of the subjects for a course of study in Arts.
- (b) Teachers who have passed the First Examination in Bachelor of Science (External) Degree Programme in or after 2017 for courses of study in Biological Science, Physical Science or Applied Sciences.

In order to be eligible for admission, a teacher belonging to either of the above categories should:

- (1) Have completed at least 5 years of service as a teacher from the date of the first appointment.
- (2) Not be enrolled as a student in any Teacher Training College/ College of Education at the time of selection and
- (3) In the case of Biological Science or Physical Science or Applied Sciences a candidate should have obtained passes in the relevant subjects at the G.C.E (Advanced Level) Examination or the First Examination in Bachelor of Science (External) Degree Programme as a pre-requisite to be selected for a course of study available in a University.

The Secretary of the Ministry of Education through a Government Gazette Notification will entertain applications for admission of teachers under this special provision. Selections will be made by the UGC based on the performance (Aggregate and/ or marks obtained for the relevant subjects) of candidates at the General Arts Qualifying (External) Examination/ First Examination in Bachelor of Arts (External) or the First Examination in Bachelor of Science (External) Degree Programme & based on the performance at the interview held by the UGC. Candidates should not send applications directly to the UGC.

Teachers selected for admission under this special provision should be prepared to follow the courses of study which are offered to them.

All selected candidates will be admitted to the first year of study.

6.7 Additional Intake

For some subjects in the course of study in Arts, an adequate number of students may not be selected on the basis of the admissions policy specified in Section 1.1 above. As a result, some Faculties and Departments could be in a position to admit a larger number than the number selected under the normal admission criteria.

In such circumstances, the UGC may, at the request of the Universities concerned, decide to admit a limited number of additional students for the selected subject areas. This is ‘an additional intake’ aimed at making optimal use of the human and physical resources available at Universities, as well as meeting skilled manpower needs of the society.

Since candidates are selected out of those who have already applied for the normal intake, no separate application need to be made for selection under the Additional Intake.

Students under this provision will be selected based on the All Island Merit. However, for Language subjects, Religion and Civilization subjects and Aesthetic Studies subjects, candidate should have necessarily obtained at least a “C” Grade for the subject (in the case of English Language minimum requirement is a “S” Grade) for which he/she would be considered.

Successful candidates should study this subject area throughout the duration of his/her university education. If the candidate intends to obtain a specialized degree he/she should select the same subject to which he/she was selected under this special provision.
